

# Why The Camrack® 4-in-1 Warewashing System?

No Dirty Hands

No Bugs

No Bacteria

No Rodents

Base Racks Colors

1. Efficient Washing

2. Sanitary Storage

3. Inventory Management

(ID Clip + Color Coding)

4. Safe & Sanitary Transportation

The first thing customers look for to judge the cleanliness of a restaurant is the glassware, flatware and dinnerware. Cambro can help insure your brand with our exclusive **4 in 1 system** that will protect your glassware from the time it exits your dishwasher to when the glass is placed on the table helping keep your customers safe. No other glass rack can provide effective washing, sanitary storage, efficient inventory management and safe and sanitary transportation. Our innovative "closed wall design" will protect your glassware from dirty fingers, rodents, bugs and other contaminants that easily enter through common open wall glass racks. The benefit is clean tableware for your customers. And Camracks eliminate the need to rewash your glassware which saves on electricity, water, chemicals, labor, plastic film and helps preserve our environment.

NEW

Store your dinnerware in our new compact adjustable dish caddy (ADCSC) which hold all plate sizes up to 12" (30.5 cm)
